

Name: Jeff Dulaj

Date of Profile: July 14,, 2020

Born: November 29, 1955

Voted in to the WCMC 1971.

First Bike : S65 Honda

Current Bike: Honda CB900F Super Sport.

Bikes owned: I own and have owned many competition bikes over the years. Trials Bikes, Flat Trackers, Enduro Bikes and Street Bikes. My wife Bonnie has had street bikes most of her life from a Honda 160 Dream to a 450 Honda to an 1100 Midnight Special Yamaha, Harley Low Rider and a 650 Kawasaki.

I became interested in motorcycles because I started hanging out with Randy White and John Ranger. We all grew up in the same neighborhood and went to the same schools. My dad and Hector Ranger worked together in the machine shop at Inco and were already friends for years. Edgar Givens also was friends with Hector and my dad, Joe. They all hung out together at Gasline Cycle. Randy invited me out to the Robin Hood to ride. I was a couple years younger than them, but he would let me ride his bikes and John also. That was it, I was hooked. Dave Butler played a big part in me riding trials competition. All those guys were mentors. I worked for Edgar Givens as well as Dave Butler. I also worked for McGill's cycle and sports and Clare's Cycle and sports.

A few bikes in the garage.

I have rode many competition events from the early 70's to the 80's. I rode trials for ten years, travelled all over and rode many events and won quite a few. My daughter has ridden flat track for 18 years, was successful in winning many races including the junior CMA and Welland championships. She has moved up through the ranks to intermediate and then on to the expert class. She currently is off with a knee injury, Her racing Career had taken up a big piece of my life. (Enjoyed it all)

Above: "Kristy" #60 One of her wins at Simcoe 1/2 mile on Friday the 13th

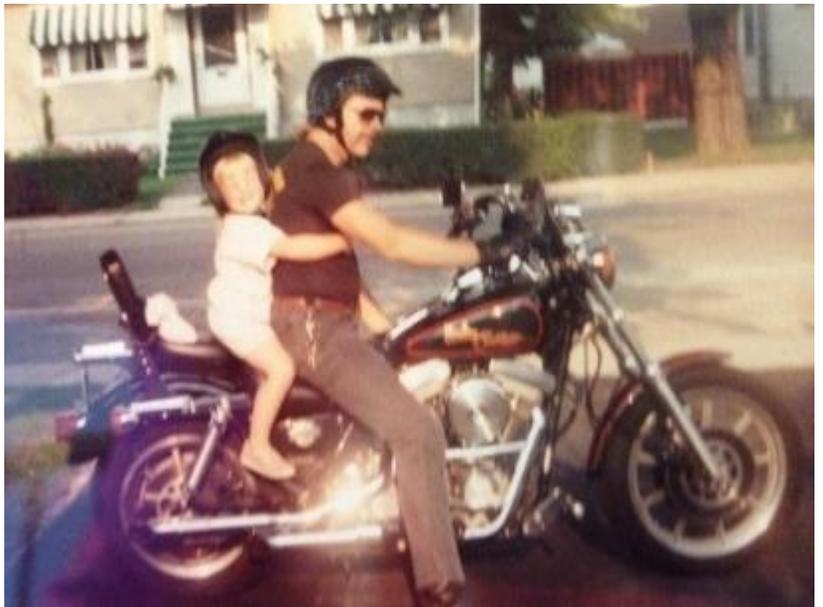

Below: Bonnie with Kristy. A win at Welland county.

Kristy out front at Welland County. Making mom and dad proud. My granddaughter will be riding shortly.

This is a pic of our brief stock car days.
This was a modified light car.

Kristy got the bug early in life
while riding on the back of
my Harley.

This pic was kind of a classic. You may remember it from super cycle magazine. Marla Garber had it taken for her. Mugzy, Barry Wells, Pete Thompson, myself Bonnie, Bob Wetmore, Tommy Wells, Patty White and so on. That was maybe one of the first Friday the 13th parties at the animal house. There was maybe only 110 people and it was cold out.

The whole family has been into motorcycles all my life. My list of motorcycles is too long to type out, I always say they make motorcycles everyday, so sell it, trade it and try something else. I have been said to change my rides as often as our mother's would tell us to change our underwear! I am currently looking to tone it down and maybe ride a Harley Ultra Classic, or something like that. We will have to see what catches my eye. Who knows could be another 750 Triumph Bonneville or even a TW200 Yamaha or maybe even build a street tracker out of a Honda XR650, ride something with lots of grunt. I wonder if I can overbore one of them HMMMM! I don't think I would change a thing other than I would never have left my dream job at Clare's in the 70's. I acquired a lot of knowledge and met some great people working there. John was good to work for.
