You meet the nicest people on a Honda.

I became interested in Motorcycles in my early teens. The first bike I rode was a friends 1950s Triumph Chopper with a suicide shift and foot clutch. I made it about a 1/4 mile and put it in the ditch. That was it I had to have a bike so the next spring I scraped up \$800.00 bucks and bought my first bike, an almost new 1971 Honda CB350.

I joined the club because I started to see all the fun some of my close friends were having in the club. At that time it was all party, party to me but I was young. The brotherhood is something you have to work your way into then you realize what the club really is and you help keep it alive by helping out where and when you can.

I have close to fifty years of Automotive related experience ranging from Heavy Collision Repair to Shop Management. Now a days I work part time checking files and establishing values for insurance companies.

My hobby for all those years was buying, repairing or restoring various motorcycles some of which are listed above.

There have been a lot of great times over the years with the club going to Lima 1/2 Mile with best buddies Jim Bodner Jr., Rudy Gondocks, Kevin R. and others. Who can forget the Scooter Club weekend, Fishing Trips, Mystery Tours with Ron Turnbull, bring your passport and American money, was all we knew.

Some of the best fun we've had is best left unsaid. All I will say is that we made it and we are a little worse for wear BUT it was worth it.

Over the years, I have done pretty much every job around the club from rookie security, track prep, ground maintenance, slugging bales of hay around the track walls, running rider registration for the races, helping out with rides, Biketoberfest and generally lending a hand where and when I could. There have been a couple awards but what's really important to me is being able to take some pride in what we as members have at W.C.M.C.

Most recently I am VERY proud to be on the 2020 WCMC Board of Directors involved with upgrading the entire Race Track AND Campground facility.
